PROJECTS

- **Robotic Arm**
  Made a robotic arm using Arduino Programming in a group of six people. The arm could lift objects and drop wherever needed.

- **Mobile Game Application**
  Made a mobile game application called Bomberman using basics of Flutter.

- **Medical Records Database System**
  Made a medical records database using Python & PL/SQL using PHP which stored data about patient's health and medicines required.

- **Connect Four Game**
  Made a connect four game that involves concepts of Artificial Intelligence using Python.

CO-CURRICULAR ACTIVITIES

- **Basketball**
  I am an active basketball player and have brought laurels to my school and college.

- **Instrument Playing**
  Quite inclined towards music and can play orchestra instruments like bagpipe, drum-set, bugle, tabla and piano.
